B.Tech 3rd YEAR,CSE

Technology Education & Research Institute was established by the Gyankund Trust to Educate and to Serve in the year 2007 with B.Tech Course at the holy city of Kurukshetra, affiliated to Kurukshetra University and Approved by State Govt., and AICTE with a vision to transform raw brains to an enlightened youth to add to the pool of result-oriented students beaming with energy to take challenging positions in Industry and other institutions with initiative and drive and to accomplish the mission to establishing centers of excellence for integrated & inclusive education, providing technical and managerial manpower of higher standards for organized as well as unorganized sector, to inculcate the interpersonal and leadership skills for the integrated development of the student.

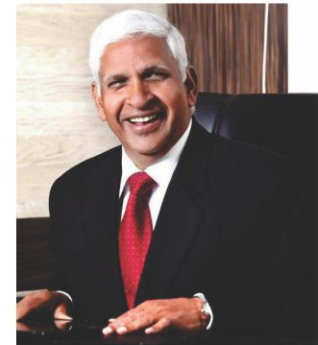

**Er. Aditya Gupta,
Secretary TERii**

The Institute became the most sought after because of its academic philosophy, discipline, governance and committed faculty. In persuasion to provide quality education, the Institute had started MBA and Polytechnic in the year 2008. The journey continued to add on more courses and a Public School in the name of TERI Public School (affiliated to CBSE) and the Bachelor of Business Administration(BBA) in the year 2009.

The journey of 12 years has been full of experiences- sweet & sour, challenges, opportunities, obstacles and success, but the best part of the story is that we kept on moving forward patiently with focus on our vision and that's how we quote proudly that we are the best educational campus in the region and that too with association with 03 IITs, leading MNCs, Government bodies, Research Institutions, and a bright legacy is set to showcase the future pathway

With over 1800 students on roll from 24 states of India, Nepal & Bangladesh and with a strong Alumni base across the globe, very good corporate & industries like NEPA Limited (A Govt. of India undertaking), mJunction (50-50 Venture of SAIL & Tata Steels), ITW India Ltd., Tech Mahindra, Essae, Ralson Tyres, Hero Cycles, Lloyd, Wipro, NIIT Ltd., HCL, and many other reputed organizations have conducted On Campus drives in the institute.

I am sure the future shall be brighter to this beautiful educational campus.

Dr. M. P. Gupta
Advisor TERii

Having served over 40 years to technical education system of the country from the grass root to the top echelon, I feel TERii's foundation has been satisfactorily laid now, though a long journey is yet to be travelled. In the era of technology, the demand of technically qualified graduates is certain to rise in the time to come, though the youth is to align themselves as per the corporate needs. The skill set, companies are looking to hire, is changing very rapidly. The technology at its peak today is certain

to go obsolete in a short span like 5-6 years. In such a time, opportunities are many and accordingly changes are many too.

For TERii, certainly few broad agendas are there in my mind which I wish to see meeting reality in another span of five years or so. My foremost priority is to see our Alumni forming their organizations and coming to recruit their junior fellow mates to meet up the placement chapter of the institute. I am happy over the situation that the process has already begun, though yet to be a regular and continuous process.

I am happy over the situation that TERii has switched to smart learning systems with NPTEL, SWAYAM, UDEMY, Virtual Labs, Smart India Hackathons, and students are doing well. We have conceived two Entrepreneurship Development Cells recently and aspire to replicate them very fastly. Another agenda is to increase liaison with the industry for realistic students alignment towards real life problems and projects.

For Management programmes, I look forward to induct more professionalism amongst the students with better personality traits, work commitment and integrity level. I am sure TERii has a very bright future ahead.

Extension Lecture by Dr. R K Deswal – 26 July 2018

Dr. R. K. Deswal, Proctor, Kurukshetra University interacted with TERiians and delivered an extension lecture on 'Need of Yoga & Meditation for the Youth'

He spoke on ancient knowledge of various aspects of Yoga, Motivation and Career Consciousness. As part of the Induction Programme for the students, the session empowered the students with great insights.

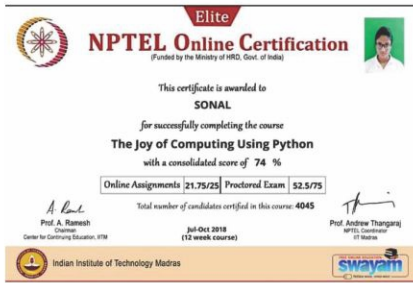

TERii Talks by Prof. (Dr.) Pankaj Chandna, NIT Kurukshetra

Kurukshetra and the Head of NIT Kurukshetra Alumni Association delivered his expert talk in the session of TERii Talks on CAE- Innovation and Real Learning.

He guided the students and faculty to make the best use of Technology and Resources of Learning. Prof. Chandna also throws the light that how the students shall select their engineering specialisations.

The IIT Certifications for TERiians

Being a NPTEL Local Chapter of IIT Madras, TERii provides a wonderful platform to faculty members and students to opt for certification programmes with all IITs of the country without any additional cost to them. In the current semester, TERiians brought few certifications from IIT Kharagpur, IIT Madras and IIT Kanpur.

Membership Certificate with USHLBE

In continuation with the accolades in the kitty of TERii one more feather has been added in the form of certification from 'US Higher Learning Board of Education' to promote and maintain a well balanced education program and for meeting or exceeding standards considered essential for quality education.

NASA Marshall Space Flight Centre Certificate of Participation

TERii believes in the regular participation of students in the constructive learning through practical exposure, keeping in view TERii students has participated in the NASA marshall space flight center competition in association with Tec Mantra Lab, Kurukshetra

Induction Programme

Induction programme is a ritual at TERii to welcome the fresher's in the institute. It's a tradition in TERii to whole heartedly welcome the fresher's by organizing the orientation programme.

Musical Eve with Poornima Sukant

TERii not only focuses on the academics but also generate the habits of participation in cultural activities. Part of this culture its always ahead to provide an ambiance to the students for entertainment with musical and live performances in due course of their curriculum.

Grandeur Engineers Day Celebration

TERii Celebrates 51st Engineers Day on 15th of September wherein Prof. Ganeshi Lal, Hon'ble Governor of Odisha was the Chief Guest and he expressed his gratitude by giving a relevant message that Digital Transformation must be integrated with Positive Self-realization

TERii Celebrates 51st Engineers Day on 15th of September wherein Prof. Ganeshi Lal, Hon'ble Governor of Odisha was the Chief Guest and he expressed his gratitude by giving a relevant message that Digital Transformation must be integrated with Positive Self-realization

The programme was organized jointly with Institution of Engineers India, and on this occasion 05 Engineering personalities including Dr. M P Gupta, Advisor TERii were awarded with Eminent Engineer Award by his excellence Prof. Ganeshi Lal Ji.

It was a great exposure for the students and faculty members of TERii along with other invited guests from all over the state.

Prof. Ganeshi Lal, Hon'ble Governor, Odisha, inaugurated the PM Kaushal Vikas Yojna Centre at TERii Kurukshetra, With 500 seats to train the learners with skills to get employment, TERii PMKVY Centre shall open new horizons for the region.

टेरी संस्थान के लिए 500 सीट आवंटित

इसस पूर्व अभियंता दिवस कार्यक्रम का शुभारम्भ टेरी संस्थान में टेरी प्रधानमंत्री कौशल विकास केंद्र के शुभारंभ के साथ हुआ। संस्थान के मुख्य सलाहकार डॉ. एमपी गुप्ता ने जानकारी दी कि हाल ही में भारत सरकार द्वारा कौशल विकास के लिए टेरी संस्थान को 500 सीट आवंटित की गई हैं। उड़ीसा के राज्यपाल गणेशी लाल, राष्ट्रीय प्रौद्योगिक संस्थान के निदेशक प्रो. सतीश कुमार, वाईएमसीए फरीदाबाद कुलपति प्रो. दिनेश अग्रवाल, राष्ट्रीय कवि संगम के अध्यक्ष जगदीश मित्तल, थानेसर विधायक सुभाष सुधा ने टेरी प्रधानमंत्री कौशल विकास केंद्र का शुभारंभ किया।

युवाओं का तकनीकी स्तर पर मजबूत होना जरूरी

जागरण संबद्धता, कुरुक्षेत्र : ओडिशा के राज्यपाल प्रो. गणेशी लाल ने कहा कि डिजिटल ट्रांसफॉर्मेशन ने हमें सामाजिक, आर्थिक और तकनीकी स्तर पर जोड़ा है। लोगों को सोचने पर मजबूर कर दिया कि आंतरिक परिवर्तन डिजिटल ट्रांसफॉर्मेशन से भी संभव है। उन्होंने कहा कि युवाओं को तकनीकी स्तर पर मजबूत होना होगा। वे शनिवार को टेरी शिक्षण संस्थान में आयोजित 51वें अभियंता दिवस में बोल रहे थे। इससे पहले प्रोफेसर गणेशी लाल ने टेरी संस्थान में प्रधानमंत्री कौशल विकास केंद्र का उद्घाटन किया। संस्थान के मुख्य सलाहकार डॉ. एमपी गुप्ता ने जानकारी दी कि सरकार ने कौशल विकास के लिए टेरी संस्थान को पांचवां सीट आवंटित की हैं। इस मौके पर पानीपत की उपमुख्य सहायक ने सुभाष सुधा ने मुख्यातिथि का स्वागत किया। मुख्य वक्ता पद्मश्री डॉक्टर सतीश कुमार ने डिजिटल ट्रांसफॉर्मेशन : एक नई औद्योगिक क्रांति विषय पर अपने विचार रखे। इस अवसर पर राज्यपाल द्वारा पद्मश्री डॉ. सतीश कुमार, प्रो. दिनेश अग्रवाल, प्रो. एमपी गुप्ता, ईकैसी सेटी, प्रो. पंकज चानना, इंजीनियर चंद्रशेखर गोयल को एमिनेंट इंजीनियरिंग पर्सनालिटी अवार्ड से सम्मानित किया गया।

कौशल विकास केंद्र का उद्घाटन करते ओडिशा के राज्यपाल प्रो. गणेशी लाल और

Jagran at TERii Campus

Continuing with the trend since 2012, with blessings of Goddess Durga, the institute organized Maa Bhagwati Jagran in the Campus, where Management, Faculty, Staff and Students sought blessings of Maa Durga.

State Level Ball Badminton Tournament

Sports brings harmony and team spirit, to inculcate the habit of team spirit TERii is also committed to the overall growth of the students keeping in view the State level ball badminton tournament was organized in joint collaboration with State Ball Badminton Association, Haryana.

Internships in Ralson Tyres

In the process of making students industry-ready, TERii collaborated with leading Cycle Manufacturer of the Country – Ralson Tyres for internship opportunity to Diploma Mechanical Engineering Students. The cake on the ice is, students shall be paid Stipend of Rs. 11000/- per month during the internship by the Company.

Placement Drive by GPP

Student's placements have always been a top agenda of TERii. The placement season began with its prominent partner Ghaziabad Precision Products Pvt. Ltd., a 500 Crore+ turnover organization recruited 04 Mechanical Engineers from TERii at an annual package of 3.0 Lac Per Annum.

Joining of Prof. Vivek Sharma as Academic Director

TERI PUBLIC SCHOOL signs MOU for Quality Education and Coaching for NDA, IIT-JEE (Mains & Advance), NTSE, OLYMPIAD, KVPY & IELTS from the session 2019-20. Greater emphasis shall be laid on Academics and Coaching right from the beginning of Vth Standard to XII standard. Every single child shall be prepared for the competitive education for higher level technical and professional education within India and Abroad

TPS Gudgudi

Started last year, Gudgudi-2018 turned even better with more participation from students, better presence of parents and other dignitaries from Kurukshetra & Kaithal, and improved performance by little starts of TERI Public School.

In a first, CBSE nod for Class IX students' admission in skill varsity

PRADEEP SHARMA
THE HINDU NEWS SERVICE

CHANDIGARH, JANUARY 8

In a unique and first-of-its-kind initiative in the country, students of Class IX would be able to enroll directly into the university streams at Shri Vishwakarma Skill University (SVSU), Gurugram, for skill-based education. The step is aimed at improving employment potential.

The new concept, also called "feeder school", also aimed at significantly reducing the drop-out rate among the school students, has been approved by the CBSE under its "innovation school" category.

"With the nod from the CBSE and the Board of School Education, Haryana, (BSEH), the university is set to roll out the programme from the current

Skill-based education

- Under the new education system, students will study three skill-based subjects, besides one language and computers, in Classes IX and X
- In Classes XI and XII, students will have the option of specialising in one of the skill-based subjects. Besides, the students would be taught basic maths and science
- After Class XII, the students will have the option of completing Bachelor of Vocation, a three-year degree recognised by the UGC or go into traditional education system

academic session." SVSU Vice-Chancellor Raj Nehru, the brain behind the innovative concept, told The Tribune, here on Tuesday.

Nehru said the concept was an offshoot of a survey done by the university on students who had dropped out of schools. Almost 90 per cent of them wanted to study but several constraints, mainly financial, came in the way of completing their studies. The new concept would signifi-

cantly reduce the drop-out rate as it was rooted in the "earn while you learn" principle, he asserted.

Under the new system, students would study three skill-based subjects, besides one language and computers, in Class IX and X. In Class XI and XII, students would have the option of specialising in one of the skill-based subjects, which would go a long way in honing their employment skills. Besides, the students

With nod from the CBSE and the Board of School Education, Haryana (BSEH), the university is

set to roll out the programme from the current academic session. The basic aim is to introduce students to the world of skills at an early stage to reduce drop-out rate and churn out skilled manpower for the industry.

Raj Nehru, SVSU Vice-Chancellor

would be taught basic maths and science.

After Class XII, the students would have the option of completing Bachelor of Vocation (B.Voc), a three-year degree recognised by the University

Grants Commission (UGC) or go into the traditional education system. In a way, the students would be able to at least complete graduation, which is an aspiration of each individual.

"The basic aim of the concept is to introduce students to the world of skills at an early stage and to churn out skilled manpower for the industry," Nehru said. Such models had successfully been implemented in Singapore, Finland and Germany, he added.

University officials said the ultimate aim was to put in place a dual vocational education model in the integrated work and study mode as per the National Skill Qualification Framework (NSQF), where students would work in the industries across the state with flexible class timings.

TERii Educational Campus, being the only skill enabled premises in the region, welcomes Government's decision to incorporate skill programmes in basic education system; really this is the need of the hour to make student choose his/her career path right from Class IX.

With Government approved Pradhan Mantri Kaushal Vikas Kendra, Polytechnic Institute, Engineering Institute, Management Department, Well equipped labs and experienced technical team and all available resources at the same campus, students of TERI Public School shall be immediate beneficiaries of Government's decision.
